RESEARCH INTERESTS

Granular media, high-performance computing, peridynamics, analysis and theory of partial differential equations, especially of nonlocal and nonlinear dispersive type. I am also interested in signal processing and machine learning.

EMPLOYMENT

Louisiana State University

Postdoctoral Researcher, May 2020 - present
Host: Prof. Robert Lipton

EDUCATION

The George Washington University

Ph.D. in Mathematics, May 2020
Advisor: Prof. Frank Baginski
Thesis title: Harmonic Analysis Techniques in Nonlinear Dispersive Equations and Signal Processing

Tata Institute of Fundamental Research Centre for Applicable Mathematics, Bengaluru, India

Master of Science (MSc) in Mathematics, May 2014

Indian Statistical Institute, Bengaluru, India

Bachelor in Mathematics, May 2012

SUMMER RESEARCH EXPERIENCE

Oak Ridge National Laboratory

Mathematical Sciences Graduate Internship (MSGI), National Science Foundation (NSF), Summer 2019
Supervisor: Dr. Pablo Seleson

University of Hawai'i at Manoa

Visiting Scholar, Summer 2018
Supervisor: Prof. Peter Gorham

PUBLICATIONS

1. **Peridynamics-based discrete element method (PeriDEM) model of granular systems involving breakage of arbitrarily shaped particles.** Prashant K Jha, Prathamesh S Desai, Debdeep Bhattacharya, Robert P Lipton. Journal of the Mechanics and Physics of Solids, 2020. doi (arXiv:2010.07218)
2. **Simulating grain shape effects and damage in granular media using PeriDEM.** Debdeep Bhattacharya, Robert P. Lipton. (Submitted) (arXiv:2108.07212)
3. **Peridynamics for Quasistatic Fracture Modeling.** Debdeep Bhattacharya, Patrick Diehl, Robert P. Lipton. (Submitted) (arXiv:2107.14665)
4. **Mass concentration of H^s blowup solution to 2D modified Zakharov-Kuznetsov equation** Partial Differential Equations and Applications, 2021. doi (arXiv:2007.15773)

5. **Unusual Near-Horizon Cosmic-Ray-like Events Observed by ANITA-IV.** P. W. Gorham et al. Physical Review Letters, 2021. doi (arXiv:2008.05690)
6. **Global well-posedness of the mZK equation in 2 dimensions for low-regularity data.** Debdeep Bhattacharya, Luiz Gustavo Farah, and Svetlana Roudenko. Journal of Differential Equations, 2019. doi (arXiv: 1906.05822)
7. **Quasistatic Evolution with Unstable Forces.** Debdeep Bhattacharya and Robert Lipton (Submitted) (arXiv:2204.04571)

OTHER WRITINGS

1. **Harmonic Analysis Techniques in Nonlinear Dispersive Equations and Signal Processing.** Ph.D Dissertation, May 2020. ProQuest: 27831360
2. **Deconvolution problem and application to ANITA signals,** Report, submitted to ANITA collaboration at University of Hawai'i at Manoa (link)
3. **Reduction of three-dimensional axisymmetric problems to two dimensions in Peridynamics,** submitted to the NSF as part of MSGI program (link)

HONORS AND ACHIEVEMENTS

- Dean's Graduate Conference Travel Grant, The George Washington University, 2017
- Columbian College of Arts and Sciences Fellowship, The George Washington University, 2015 – present
- Junior Research Fellowship from Tata Institute of Fundamental Research, India, 2012–2014
- INSPIRE Scholarship from Department of Science and Technology, Government of India, 2010-2012
- Student Fellowship from Indian Statistical Institute, 2009-2012
- Secured an all-India rank 31 in National Eligibility Test (NET) jointly conducted by Council of Scientific and Industrial Research and University Grant Commission, Government of India, 2013

INVITED TALKS

- *Effect of particle shapes on bulk behavior of granular assembly using a peridynamics-based discrete element method*, February 24, 2022, University of Nebraska-Lincoln, Lincoln, USA
- *Multichannel deconvolution with Fourier and wavelet regularization*, Applied Math Seminar, George Washington University, October 1, 2021, Washington, D.C., USA
- *Simulating grain shape effects and damage in granular media using PeriDEM*, 16th U.S. National Congress on Computational Mechanics (USCNCM16), July 25, 2021, Chicago, USA (Virtual)
- *Effect of particle shapes on particle bulk using a Peridynamics-based discrete element method*, ALOP Workshop on Nonlocal Models, July 13, 2021, Universität Trier, Germany (Virtual)
- *Modeling particle beds with arbitrary particle shapes with peridynamics and short-range contact forces*, MURI seminar series, March 16, 2020 (Virtual)
- *Modeling particle beds using Peridynamics*, The 3rd Annual Meeting of the SIAM Texas-Louisiana Section, October 16-18, 2020, College Station, TX, USA (Virtual)
- *Modeling granular media with Peridynamics and short-range contact forces*, MURI seminar, September 9, 2020 (Virtual)
- (Postponed due to COVID-19) *On low regularity solutions to the 2D modified Zakharov-Kuznetsov equation*, 13th AIMS Conference on Dynamical Systems, Differential Equations and Applications, June 5-9, 2020, Atlanta, USA
- *Reduction of 3D axisymmetric models to 2D in peridynamics*, Computational and Applied Math (CAM) seminar, Computer Science and Mathematics Division, Oak Ridge National Laboratory, August 8, 2019
